

THE VISIT

In English, Danish, Denglish and French

The year is 1857. Charles Dickens had invited Hans Christian Andersen to come and stay with him anytime. Andersen, known for his spontaneity, suddenly turned up almost without warning and a very poor grasp of the English language 10 years later.

There follows a whole string of gaffs, misunderstandings and odd adventures with a cast of colourful characters. The man who came to visit for a few days finally left for Denmark after six weeks leaving in his wake a family divided and nervous breakdowns on both sides. Andersen coined the phrase "To travel is to live." Dickens might have been inspired by his visit to write his famous line "It was the best of times, it was the worst of times."

RUB A DUB DUB

Three fools in a tub

The comedy is set in the near future where three old friends meet over a weekend.

The gathering is watched over by SiSi, a sassy-voiced replicant who is powered by Artificial Intelligence and programmed to tell the truth. When one of the friends announces that he plans to end his life by euthanasia emotions run high, not least for SiSi who understands human emotions, but desperately wants to know what love is.

A comedy about technology and the endurance of friendship.
